23 July 1964 JB to D/L,
sub: D/L memo of 7 Apr 64;
sub: Supply Div. EDP System

OCS Interrelations - O/L - Supply Division EDP System

O/L Task Team ~~proposed~~ proposed changes and improvements for the O/L current system of electronic data processing. AD/CS recommended to D/L certain additional changes in the plan which might, in the final analysis, mean that a new system to include all the additional mods would be more sensible. 2 courses open to O/L: patch the present system; or take a fresh approach to O/L's need for logistical info and build a new computer-driven system from scratch.
